

ENVIRONMENTAL POLICY

LVF spa is fully aware that a responsible economic strategy which takes into account environmental problems generated from its activities is essential for the success of the company, its customers and all involved parties.

Also, LVF spa recognises that a constant improvement of its own environmental performances brings to significant commercial and economical benefits, satisfying at the same time the expectation of environmental improvements relating to the local context where the company performs.

Because of that, LVF Management engages to pursue a policy to improve constantly its environmental performances minimising, where technically possible and economically sustainable, all negative impacts on the environment caused from its activities. Also, LVF management engages to assume an active role to promote and guide all activities that affect the environment, towards the comprehension and diffusion of concepts here exposed.

LVF spa aims to achieve the above-mentioned goals with the following activities:

- Assure that its own activities are carried out in conformity with current legislation and any other environmental prescriptions that LVF signs;
- Implement and maintain a successful environmental management system in accordance with UNI EN ISO 14001:2015;
- Implement organizational, operative and technological efforts to protect the environment; preventing air, soil and noise pollution with the aim of improving constantly its environmental performances;
- Minimise energy and water consumption, reduce waste generation and promote recycling where possible;
- Consider the main environmental impacts of its products life cycle;
- Establish environmental targets and include them with departments operating management, developing plans and business strategy;
- Assure that this environmental policy and related management system are understood, implemented and kept in all organization levels, and that environmental system is supported by periodic and systematic formation and training activities;
- Reach needs and expectation fulfillment of parties interested in LVF activities;
- Assure that this policy is available for all associates and interested parties.
